## INLAND REGION

### Flat, Vegetation Fire, Trinity County

Location: Reading Creek Rd., 5 miles SE of Douglas City

Jurisdiction: State DPA, SRA, FRA

Start Date/Time: 06/28/18 at 1801 hours

Per Cal OES Duty Officers and ICS-209 as of 07/03/18 at 1603 hours:

- 300 acres, 80% contained
- Expected containment: 07/06/18
- Steep terrain hampering suppression efforts

### Lions, Vegetation Fire, Madera County

Location: Lion Point, in the Ansel Adams Wilderness Area

Jurisdiction: Federal DPA, FRA, Sierra NF/Inyo NF

Per Cal OES Duty Officers and ICS-209 as of 07/03/18 at 1708 hours:

- 4,000 acres, 60% contained
- Expected containment: 07/14/18
- Moderate fire behavior, flanking and isolated torching
- Managed fire for multiple resource benefit

# **FIRE ACTIVITY**

## **INLAND REGION (Continued)**

### **County, Vegetation Fire, Yolo and Napa Counties**

Location: County Road 63 x Highway 16, Rumsey Canyon

Jurisdiction: State DPA, SRA

Type-3 IMT

Start Date/Time: 06/30/18 at 1412 hours

Per Cal OES Duty Officers and ICS-209 as of 07/03/18 at 1750 hours:

- 72,500 acres, 15% contained
- Expected containment: 07/10/18
- Continued threat to Snow Mountain National Monument

### **Activations**

- Yolo County Emergency Operations Center (EOC) is activated at Level 1 as of 07/03/18 at 0600 hours
- Napa County EOC is at Duty Officer Status at this time

### **Deployments**

- 2 Cal OES Fire and Rescue Branch Assistant Chief assigned
- 1 Cal OES Inland Region Emergency Services Coordinator (ESC)
- 4 Public Safety Communications Technicians (PSCTs) and 1 trainee

### **Cal OES Assistance**

- On 07/02/18 at 2054 hours, the Incident requested 10 satellite phones from Cal OES to support firing operations.
  - Per the Cal OES TACCOM Duty Officer (TDO) the equipment was delivered on 07/03/18.
- As of 07/02/18, the Cal OES TDO is working with CUEA to provide additional cell phone capacity to the Incident Command Post (ICP), located at the Yolo County Fairgrounds.

### **FMAG**

- On 07/01/18 at 1322 hours, a Fire Management Assistance Grant (FMAG) was received. The request has been placed on hold.

# **FIRE ACTIVITY**

## **INLAND REGION (Continued)**

### **County, Vegetation Fire, Yolo and Napa Counties (Continued)**

#### **Evacuations**

- Mandatory: North of Hwy 128 in Yolo County, not including the City of Winters, South of County Road (CR) 23, east of Berryessa Knoxville Rd.
- Mandatory: West of CR 89, south of the community of Esparto; however, agricultural equipment will be permitted
- Mandatory: Residences served by Hwy 128, between Monticello Dam and Pleasant Valley Rd.
- Yolo County:
  - Advisory: North of Quail Canyon Rd., south of Hwy 128, east of the Blue Ridge mountains, west of Pleasant Valley Rd., east of Capell Valley Rd., north of State Hwy 128 from Capell Valley Rd., east to the Napa County line, all of Steele Canyon Rd., south of Hwy 16 to CR 23, west of CR 858 to CR 81, this area is bordered on the south and west by area already under a mandatory evacuation.
- Napa County:
  - Advisory: Communities of Berryessa Highlands, Markley Cove and Pleasure Cove Resorts, defined as east of Capell Valley Rd., north of State Hwy 128 from Capell Valley Rd., east to the Napa County line and all of Steele Canyon Rd.

#### **Road Closures**

- N/B CR 87 from Hwy 128, Berryessa Knoxville Rd. from Pope Creek Bridge to the Napa/Lake County Line
- E/B Hwy 128 at Markley Resort
- W/B Hwy 128 at Pleasant Valley Rd.

#### **Evacuation Centers/Shelters**

- Evacuation Center: Boy Scout Cabin, 16960 Yolo Ave., Esparto, Yolo County
  - Hours of operation: 0700-0000 hours beginning on 07/02/18, 0000-0700 hours (standby)
  - Population, as of 07/03/18, 0750 hours: 0
- 400 person shelter supplies on standby
- There are currently no shelter needs for Napa County

#### **Animal Shelter**

- Large Animal: Yolo County Fairgrounds, 1250 Gum Ave., Woodland
- Large Animal evacuation centers are being coordinated through the Yolo County Sheriff's Office
- A veterinary emergency response team is on standby.

#### **Critical Infrastructure**

Per California Utilities Emergency Association (CUEA) as of 07/02/18 at 1341 hours:

- The threat to the AT&T mobility tower (Berryessa Peak) has been mitigated.
- There are no outages due to the fire and the grid is stable.

# **FIRE ACTIVITY**

## **INLAND REGION (Continued)**

### **County, Vegetation Fire, Yolo and Napa Counties (Continued)**

#### **Missions**

- **2018-IREOC-4779:** 2018 June Inland Fires - Two portable air quality monitors were requested.
  - One to be located at 26490 Woodland Ave., Esparto, at the Esparto Community Services District facility
  - One to be located at 501 E. Main St., Winters, at the fenced well site

#### **Petersburg, Vegetation Fire, Siskiyou County**

Location: Petersburg x Caribou Creek Rd., 3 miles southwest of Cecilville

Jurisdiction: Federal DPA, FRA, Klamath National Forest

Start Date/Time: 07/01/18 at 1440 hours

Per Cal OES Duty Officers and ICS-209, as of **07/03/18 at 0821 hours:**

- 215 acres timber, brush, **30% contained**
- Structures are threatened
- Other minor structures: Damaged 0, Destroyed 2

#### **Evacuations**

- At the request of the US Forest Service, a mandatory evacuation order is in effect for Glacier View Ranch, Lakeview Ranch, and Big Flat area.
  - The area is sparsely populated and deep within FRA lands.

# FIRE ACTIVITY

## COASTAL REGION

### Pawnee, Vegetation Fire, Lake and Colusa Counties

Location: Pawnee Rd. x New Long Valley Rd., 4 miles NE of Clear Lake Oaks

Jurisdiction: State DPA, SRA

Type-3 IMT assigned

Start Date/Time: 06/23/18 at 1726 hours

Per Cal OES Duty Officers and ICS-209 as of **07/03/18 at 1800 hours**:

- 15,000 acres, 85% contained
- Expected containment: 07/05/18
- Single Residences Damaged 3 Destroyed 12
- Other minor structures Damaged 3 Destroyed 10
- Continued structure threat

### **Deployments**

- 2 Cal OES Fire and Rescue Branch Assistant Chiefs
- 3 Public Safety Communications Technicians (PSCTs) assigned

### **FMAG**

- On 06/23/18, an FMAG request was received by Cal OES. On 06/24/18, the FMAG was approved by FEMA; FEMA-5244-FM-CA.

### **Proclamations**

- On 07/03/18, a Proclamation was received from the Lake County Health Officer, proclaiming a Local Health Emergency due to the effects of the Pawnee Fire. They are not requesting assistance at this time.
- On 07/02/18, a Proclamation from Yolo County Flood Control and Water Conservation District was received due to the Pawnee Fire. They are not requesting any assistance at this time; however, CDAA is anticipated to be requested on 07/03/18, when the board ratifies the Proclamation.
- On 06/24/18, a Proclamation of Local Emergency was received from Lake County as a result of the incident. On 06/27/18, a letter was received from Lake County requesting disaster assistance under CDAA. On 07/03/18, a Resolution confirming the existence of a Local Emergency was received from Lake County, officially requesting CDAA and that the emergency proclamation be forwarded to FEMA for consideration under the Stafford Act.
- On 06/25/18, Governor Edmund G. Brown Jr. issued an emergency proclamation for Lake County due to the effects of the Pawnee Fire, which has destroyed homes, threatened critical infrastructure, and caused power outages and the evacuation of residents.  
[Click here for full proclamation](#)

# **FIRE ACTIVITY**

## **COASTAL REGION (Continued)**

### **Pawnee, Vegetation Fire, Lake and Colusa Counties (Continued)**

#### **Critical Infrastructure**

- Indian Valley Dam at Indian Valley Reservoir – Owned by Yolo County Flood Control District
  - As of 07/02/18 at 1058 hours, Cal OES Dam Emergency Action Planning Division advised 30-40 power poles and 3 miles of wiring have been damaged. Repairs are pending due to limited access. No retail customers. Power production and sales to Valley Clean Energy Alliance have been stopped indefinitely.
  - There is no service impact to the public.
  - Dam operations are not affected – As of 07/02/18, they are still running on generator power and their ability to produce hydro power is down.
  - There is no threat to the dam.

#### **Health/Medical**

- 1 Air Monitor is currently placed in Middletown and available to move to other locations as needed.
- 1 Air Monitor is in Clear Lake.

#### **Recovery**

- CAL FIRE damage inspectors, along with Lake County building inspectors, assessed areas on 06/26/18 for initial damage estimates.
- Public works is removing hazardous trees in fire affected areas in anticipation of re-entry.

# WEATHER OF CONCERN

## Weather of Concern

### **Southwest California:**

- A significant heat wave is expected to affect Southwest California Thursday, 07/05/18 through Sunday, 07/08/18, with the most dangerous heat expected on Friday and Saturday when record triple digit heat will be likely across many inland area.
  - During this time, valley, lower mountain, and desert locations are expected to range between 102 and 112 degrees.
  - Many portions of the coastal plain are expected to soar into the 90s to around 100 degrees, with heat impacts magnified due to lack of air conditioning for many coastal residents.
  - This heat will be accompanied by very dry conditions, with the potential for widespread single digit humidities on Friday and possibly Saturday.
  - Gusty northerly winds will affect portions of Southwest California, strongest across the mountains, Santa Barbara south coast, and Santa Clarita Valley where gusts will likely range between 35 and 45 mph.
  - These areas will have the potential for critical fire weather conditions, resulting in the issuance of a Fire Weather Watch.
  - This is a significant heat and fire weather threat, urging everyone to take necessary heat safety precautions and use extreme caution with any potential ignition sources.

### **Southeast California:**

- Excessive heat is forecast for much of the region on Thursday and Friday; as Thursday, temperatures are expected to become brutal and extremely hazardous for southeastern California Thursday through Friday.
  - High temperatures are forecast to top out above 115 degrees for most urban areas.
  - Excessive Heat Watches are in effect Thursday morning through Friday evening for portions of the forecast area.

# WEATHER SYNOPSIS BY REGION

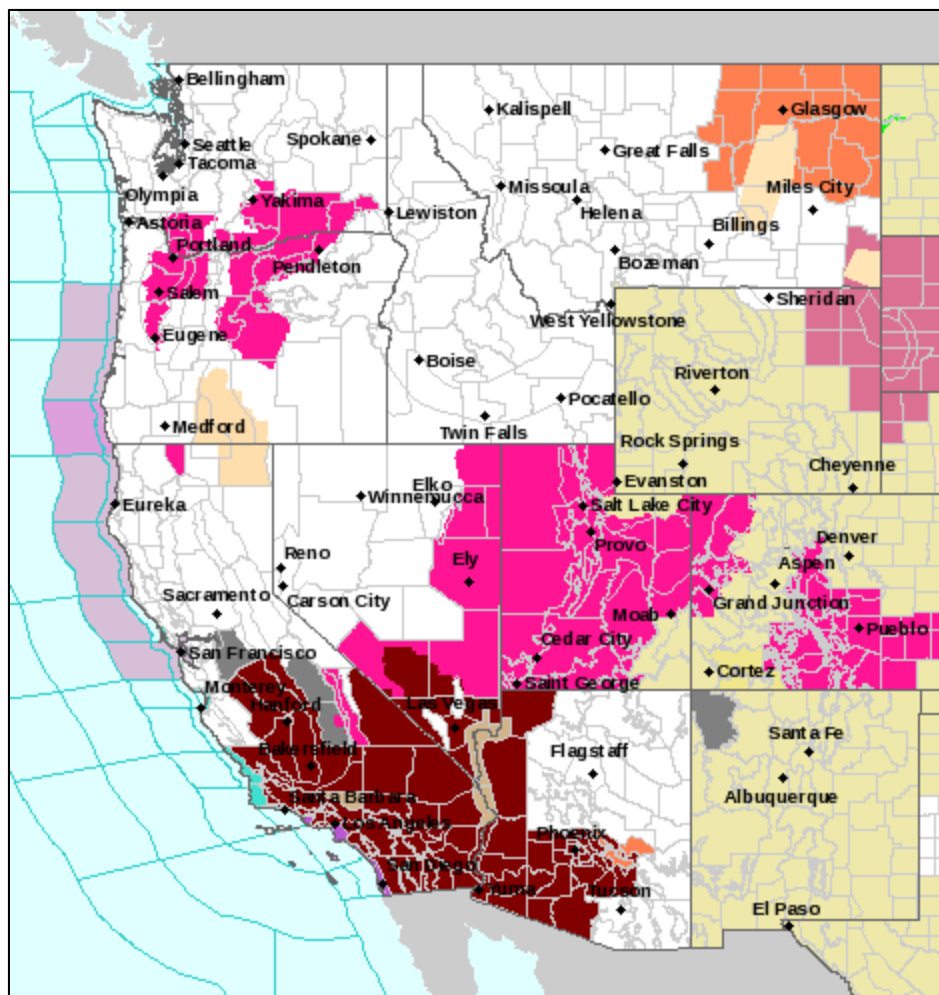

## **NORTHERN CALIFORNIA**

Gusty northerly winds and low relative humidity (RH) will persist this morning in the Sacramento Valley/western Foothills for Near High Risk conditions. High Risk for gusty S afternoon winds/Low RH Far Eastside and NE Wed through Friday and for the Sacramento Valley Wed only. A couple of low pressure troughs will be affecting the region over the next few days. One will be exiting the region this morning. Expected some lingering low RH (25% or less) and gust northerly winds (12-18 mph, gusts around 25 mph) in the Sacramento Valley and western foothills this morning, but lighter winds this afternoon. Another, cooler trough will be moving into place just off shore later tonight and linger there before coming ashore Friday. Dry, warm conditions will prevail over the region, but gusty S to SW winds of 8-15 mph with gusts mostly 20-25 mph (locally 30 mph) and low RH (10-20%) will develop Wednesday through Friday afternoons from this system over the NE, Far Eastside and Sacramento Valley/Foothill. High Risk of significant fires has been designated for these areas Wednesday through Friday, except only Wednesday in the Sacramento Valley area. Fuel conditions are such that even this rather moderate wind will lead to rapid fire spread in what would otherwise be rather unremarkable summer weather conditions. Temperatures will also become quite average to below that (mostly 90-95 warmest inland areas) through the end of the week. There may also be some light showers in the far northern areas Friday as the trough moves inland, but wetting rain is not expected. Over the weekend into early next week strong high pressure will creep northward across California, and we will see a return of mostly hot, dry weather to the region. Triple digit afternoon highs will gradually return to the warmest inland valleys this weekend and early next week. Winds should be fairly light overall with seasonably typical, local diurnal wind patterns developing, including daily afternoon on shore winds.

## **SOUTHERN CALIFORNIA**

Hot and dry later this week. Isolated thunderstorms possible Friday into the weekend. Onshore flow will maintain the relatively cool weather the next two days before a strong ridge produces near record heat later this week. Pressure gradients will generate west winds of 25-35 mph this afternoon in and near the Antelope Valley and the Banning Pass. One or two thunderstorms will again develop along the Sierra Crest during the afternoon hours the next two days. Highs through Wednesday will reach the upper 80s to lower 90s in the valleys, the upper 90s in the San Joaquin Valley to 110 in the low desert. Thursday, expect maximum temperatures to jump of 10-15 degrees with widespread readings of 100-105 in the valleys and lower foothills. Daytime RH will likely drop into the 10-15% over most areas below 7,000 feet. A bit of monsoonal moisture may arrive Friday, resulting in some buildups near the higher terrain adjacent to the desert. But the best chances for convection will likely be over the weekend when isolated thunderstorms will be possible along the Sierra Crest southward to the mountains from Los Angeles County south and eastward. There may also be gusty north winds in Santa Barbara County and the I-5 Corridor Friday night into Saturday. Temperatures may cool off a couple of degrees over the weekend, but expect highs to remain well above normal well into next week. Thunderstorm chances will likely decrease by next Tuesday.
